FOR IMMEDIATE RELEASE

**Enterra Solutions, LLC, Builds on Oracle® Fusion Middleware
To Deliver Secure, Compliant Solutions for Enterprise Resilience**

*OpenWorld Exhibit to Demonstrate How Joint Solutions with Oracle
Help Make Enterprise Resilience Management Solution™ A Reality*

YARDLEY, Pa. (Oct. 23, 2006) – Enterra Solutions, LLC, a member of the Oracle® PartnerNetwork, today announced the showcase of its innovative application of Oracle Fusion Middleware in the Secured Enterprise Pavilion at this year’s Oracle OpenWorld. The event, the world’s largest dedicated to helping enterprises understand and harness the power of information, runs from Monday, Oct. 23 through Thursday, Oct. 26 at the Moscone Center in San Francisco, CA.

Enterra uses Oracle Fusion Middleware to automate its clients’ critical business processes by powering the Enterprise Resilience Management Solution™ (ERMS), Enterra’s one-of-a-kind approach to confronting the challenges of the 21st century. ERMS allows clients to better respond to change, satisfy compliance requirements and improve protection against security threats.

“Enterra’s position within Oracle’s Governance, Risk, and Compliance architecture highlights how the combination of Oracle Fusion technology and ERMS addresses critical business issues,” said Stephen DeAngelis, Founder, President and CEO of Enterra. “Enterra’s ERMS capability allows Oracle to contextualize its service-oriented architecture and make it compliant with existing rules and regulations, as well as enabling a dynamic capability to update rules and regulations in a rapidly changing environment.”

DeAngelis added, “Enterra’s compliance offering is fully compatible with Oracle’s Fusion Middleware and integral to its Governance, Risk, and Compliance architecture. Together, Oracle and Enterra Solutions can provide joint customers with innovative, robust compliance solutions.”

Leading organizations in the Financial Services, Telecommunications, Manufacturing, Retail, Pharmaceuticals, Health Care and Public Sector industries now use Oracle Fusion Middleware, a comprehensive, standards-based family of best-in-class middleware products.

Enterra’s exhibit, displaying the company’s ERMS framework powered by Oracle Fusion, will be located in Booth 3110 of Moscone West (SA11) during the OpenWorld sessions. The Exhibition Hall will be open for both the morning and afternoon session on Oct. 23 and 24, all day on Oct. 25 and in the morning on the final day of the conference, Oct. 26. For more information on scheduling, visit the conference Web site at <http://www.oracle.com/openworld/index.html>.

For more information, or to make your business more resilient, visit Enterra’s Web site at www.enterrasolutions.com, or contact them at 215-497-3100.
